Subject: Closure of Petroleum Contamination Case for Tigerton Lumber Co., Tigerton, WI;
DNR ID # 03-59-09588.

Dear Mr. Ort:

I have received a copy of the Groundwater Use Deed Restriction that was filed at the Shawano County Register of Deeds Office required as a condition of case closure. I have also received documentation that all monitoring wells related to this case have been properly abandoned in accordance with Wisconsin Administrative Code NR141.

Based on the investigative and remedial documentation provided to the Department, it appears as that the petroleum contamination at the above-named site has been remediated in compliance with the requirements of chs. NR 700 to 724, Wis. Adm. Code. Therefore, the Department considers the site "closed," having determined that no further action is necessary at the site at this time. However, the case may be reopened pursuant to s. NR 726.09, Wis. Adm. Code, if additional information regarding site conditions indicates that contamination on or from the site poses a threat to public health, safety or welfare or the environment.

I will formally close this case on our case tracking system. If you have any questions regarding this determination, contact me at (715) 526-4230. The Department appreciates the cooperation you have shown in this matter.

Sincerely,

Tom Sturm
Hydrogeologist

STATE OF WISCONSIN

RECEIVED

COUNTY OF SHAWANO

NOV 18 1998

Ans'd

WHEREAS, Tigerton Lumber Company, a Wisconsin Corporation, is the owner of the above-described property.

Parcel Identification Number (PIN)

WHEREAS, one or more petroleum discharges have occurred at this property. Benzene and Xylene contaminated groundwater above NR 140 enforcement standards exists on this property at the following location(s): MW-2, Benzene at 61 ug/L (micrograms per liter); MW-3, Benzene at 330 ug/L, Xylene at 740 ug/L; MW-4, Benzene at 21 ug/L. Location of monitoring wells are provided on Figure 1, attached and made part of this restriction.

WHEREAS, it is the desire and intention of the property owner to impose on the property restrictions which will make it unnecessary to conduct additional soil or groundwater remediation activities on the property at the present time.

WHEREAS, natural attenuation has been approved by the Department of Natural Resources to remediate groundwater exceeding ch. NR 140 groundwater standards within the boundaries of this property.

WHEREAS, construction of wells where the water quality exceeds the drinking water standards in ch. NR 809 is restricted by ch. NR 811 and ch. NR 812. Special well construction standards or water treatment requirements, or both, or well construction prohibitions may apply.

NOW THEREFORE, the owner hereby declares that all of the property described above is held and shall be held, conveyed or encumbered, leased, rented, used, occupied and improved subject to the following limitation and restrictions:

Anyone who proposes to construct or reconstruct a well on this property is required to contact the Department of Natural Resources' Bureau of Drinking Water and Groundwater, or its successor agency, to determine what specific prohibitions or requirements are applicable, prior to constructing or reconstructing a well on this property. No well may be constructed or reconstructed on this property unless applicable requirements are met.

This restriction is hereby declared to be a covenant running with the land and shall be fully binding upon all persons acquiring the above-described property whether by descent, devise, purchase or otherwise. This restriction benefits and is enforceable by, the Wisconsin Department of Natural Resources, its successors and assigns. The Department, its successors or assigns, may initiate proceedings at law or in equity against any person or persons who violate or are proposing to violate this covenant, to prevent the proposed violation or to recover damages for such violation.
